DETAILED ACTION

1. Amendment and response filed by applicants dated June 17, 2010 have been entered and considered carefully.

Claims 1-15, 18-55 have been canceled. Claims 16, 17, and newly added 56 are pending.

2. The rejection of claims 15-16 under 35 USC 112 first paragraph as failing too comply with the enablement requirement is dropped in view of the cancellation of claim 15 and the limitation of claim 16 being depended on claim 56 compounds.

3. The rejection of claim 15 under 35 USC 112 second paragraph is dropped in view of the cancellation of claim 15.

However, the 112 second paragraph rejection is applicable to claim 17. It is unclear what is the scope encompassed by the term "chemokine mediated" disease state. The term mediate includes both hyper and hypo activity of the chemokine and a compound cannot simultaneously active in both hyper and hypo-physiological function. In addition, it was evidenced in the copending case SN 10/504,936 that the Barnes and Boskabady references established that there is nexus between CCR3 receptor antagonistic activity or histamine H1 inhibitory activity of such piperidinyl compounds for the treatment of obstructive pulmonary disorders.

4. The rejection of claims 15-16, 18-27, 28-30, 34, 36-37, 40-44 and 54 under 35 USC 102(e) or 103(a) are dropped in view of the cancellation of claims 15, 18-27, 28-30, 34, 36-37, 40-44 and 54 and the limitation of claim 16 now depending on claim 56 compounds.

5. The provisional rejection under the judicially created doctrine of obviousness type double patenting is now made into nonprovisional double patenting because the copending claims have been issued. Claim 1 of US 7,709,500 generically embraced the instant compounds when R9 is substituted thiazole. The copending claims were allowed based on applicants argument that "If

an earlier filed application has claims that are conflicting with those in a later filed application, and a provisional double patenting rejection is the only rejection remaining in the earlier filed application, then the Office should withdraw the double patenting rejection in the earlier filed application and allow it to issue without a terminal disclaimer. See MPEP § 822.01 and 804 (emphasis added)".

No acceptable terminal disclaimer was filed in the instant application.

6. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
